Health Data Science Day

Data-Driven Research for Better Health

This interdisciplinary day highlights the latest innovation, applications, and training in health data sciences, and will involve speakers and attendees from across UC Davis and its health research partners.

Data Science Workshops

- Two workshops aimed at introductory and intermediate data science workshops in population outcomes or Natural Language Processing.

Data Resources and Networking

- Access to resources, tools, expertise, and training as well as answers to your questions about data science and health.

Space is Limited-Register Early!

- <https://tinyurl.com/UCDHealthDataScienceDay>

Data scientists, students, graduate scholars, research scientists, faculty, and staff are encouraged to attend.
